## DETAILED ACTION

### *Response to Amendment*

Applicant's arguments filed 12/10/02 have been fully considered but they are not persuasive. The Amendment submitted by Applicant does not overcome the rejection made by Examiner in the last Office action.

Claims 1-3 and 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over So et al.

The rejection is maintained for the reasons as stated in the last Office action and for the following reasons:

Applicant's arguments are based on the structure of the claimed light resisting agents in that the dye of the reference and the claimed light resisting agents have different structures.

Applicant is correct in stating that. However, the purpose of using these structures of the claims is, when combined with a polybenzazole to absorb light with a wavelength of 450-750 nm.

The reference does disclose a dye, when combined with a polybenzazole polymer, absorbing light with a wavelength in the range of 300-600 nm. Therefore, said dye would be inherently named a light resisting agent and has the same functionality with these in the claims.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1711

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
